

**BIM ENERGY
SERVICES**

& ASSOCIATES

**ENERGY
EFFICIENCY
AT ART
RANK**

We identify and implement together with you the optimal HVAC solution price/quality/energy efficiency

CONSULTANCY

We consider that each EQUIPMENT delivered must exceed expectations.

That's why we chose to work only with renowned brands in EUROPE, considered benchmarks in installations:

DESIGN

Installation design services for :

- **INDUSTRIAL**
- **COMERCIAL**
- **RESIDENTIAL**

We are with you during the decisive phases of the project, but also at the final reception of the installation.

PERSONALIZED SOLUTIONS

Regardless of the technical, economic and financial necessity of our partners, we have the necessary expertise in HVAC and Energy Efficiency fields for SOLUTIONS as:

- THERMAL INSTALLATIONS
- VENTILATION
- AIR CONDITIONING
- HEAT PUMPS
- PHOTOVOLTAIC PANELS
- WIND INSTALLATIONS

EXECUTION

We are pursuing the implementation of systems/solutions that take into account:

- **the latest renewable technologies**
- **durability over time**
- **new regulations adaptability**

MAINTENANCE

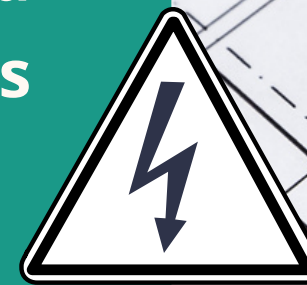

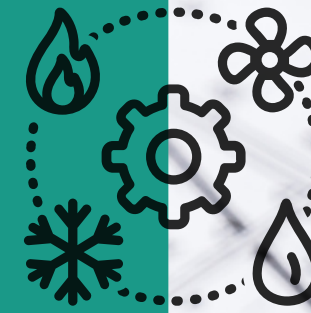

We are with you with a complete of maintenance services offer:

- **PREVENTIVE**
- **PREDICTIVE**
- **CORRECTIVE**

Technical maintenance services are provided by our associates group specialists

DESIGN SERVICES

- Feasibility/ optimal solution study
- Engineering services
- Energy audit
- Energy certification
- NZEB Studies,
- Alternative energy studies
- G Calculations
- BID Analysis
- Design of HVAC, sanitary, fire, high current and low current electrical installations Project checks for the It, Is, Ie, gas, B, Ci, Cc, D, E, F specialties
- Technical expertise It, Ie, Is, Ci and Cc
- Preparation of fire scenarios
- Project Management

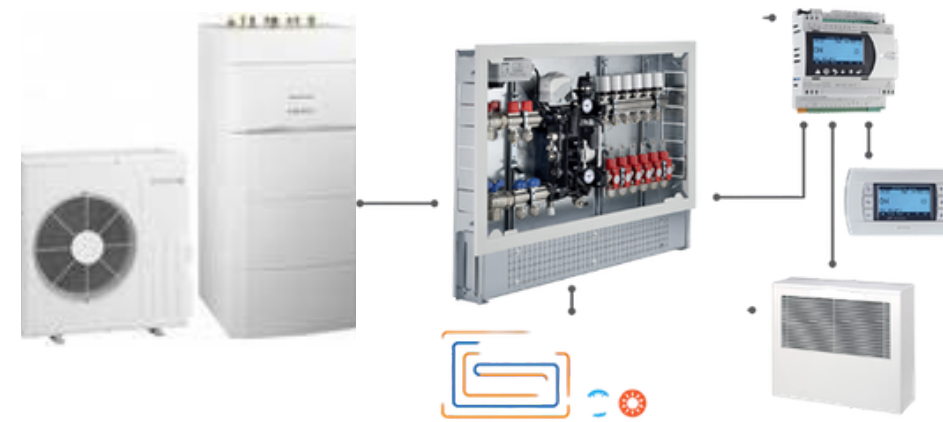

EQUIPMENT

HEAT

- AIR-WATER HEAT PUMP;
- HYBRID HEAT PUMP;

HEATING

production

- MURAL HEAT BOILERS
- FLOOR BOILERS
- SOLAR THERMAL SYSTEMS
- CHIMNEYS FIREPLACES

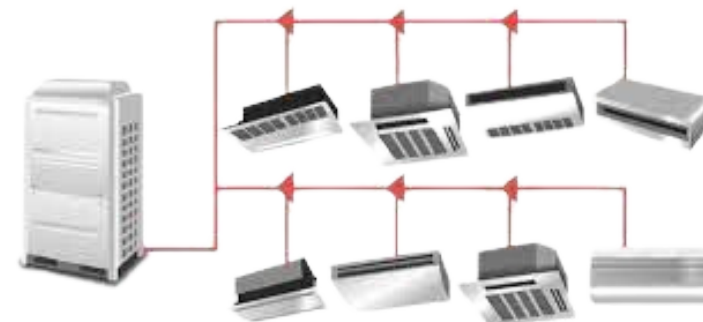

distribution

- THERMAL MODULES
- GCAL METTERS
- FLOOR HEATING RADIATORS/ CONVECTORS
- FLOOR FAN CONVECTORS

AIR CONDITIONING/TREATMENT

- MONO/MULTI SPLIT
- VRF
- AIR CURTAINS
- AIR CONDITIONING CABINETS
- HVAC - DATA CENTER
- CHILLERS
- VENTILOCONVECTORS

- ROOFTOP
- HEAT RECOVERY
- AHU

We make heating, air conditioning, ventilation, sanitary installations, electrical and fire extinguishing for all types of APPLICATIONS

Water network

We carry out execution works for water supply and sewerage networks

Outdoor installations

- Pipes and fittings for gravity drainage
- Mechanical plumbing connections
- Geiger manhole for hydrocarbon separators sewerage rainwater collection
- Pumping stations

Indoor installations

- sanitary instalations
- separators
- sewage
- water supply
- ceramics and built-in storage

HVAC

ELECTRICAL – STRONG CURENTS

- electrical wiring installations

ELECTRICAL – WEAK CURENTS

- systems for detection - fire signaling,
- fire limitation/extinguishing and hot gas smoke extraction
- burglary detection system, CCTV, access control,

FIRE EXTINGUISHING

- installation of fire extinguishing installations with hydrants and sprinklers

We identify and implement together with you the optimal HVAC solution price/quality/energy efficiency

CONSULTANCY

We consider that each EQUIPMENT delivered must exceed expectations.

That's why we chose to work only with renowned brands in EUROPE, considered benchmarks in installations:

DESIGN

Installation design services for :

- **INDUSTRIAL**
- **COMERCIAL**

- WIND INSTALLATIONS

ENERGY OPTIMISATION

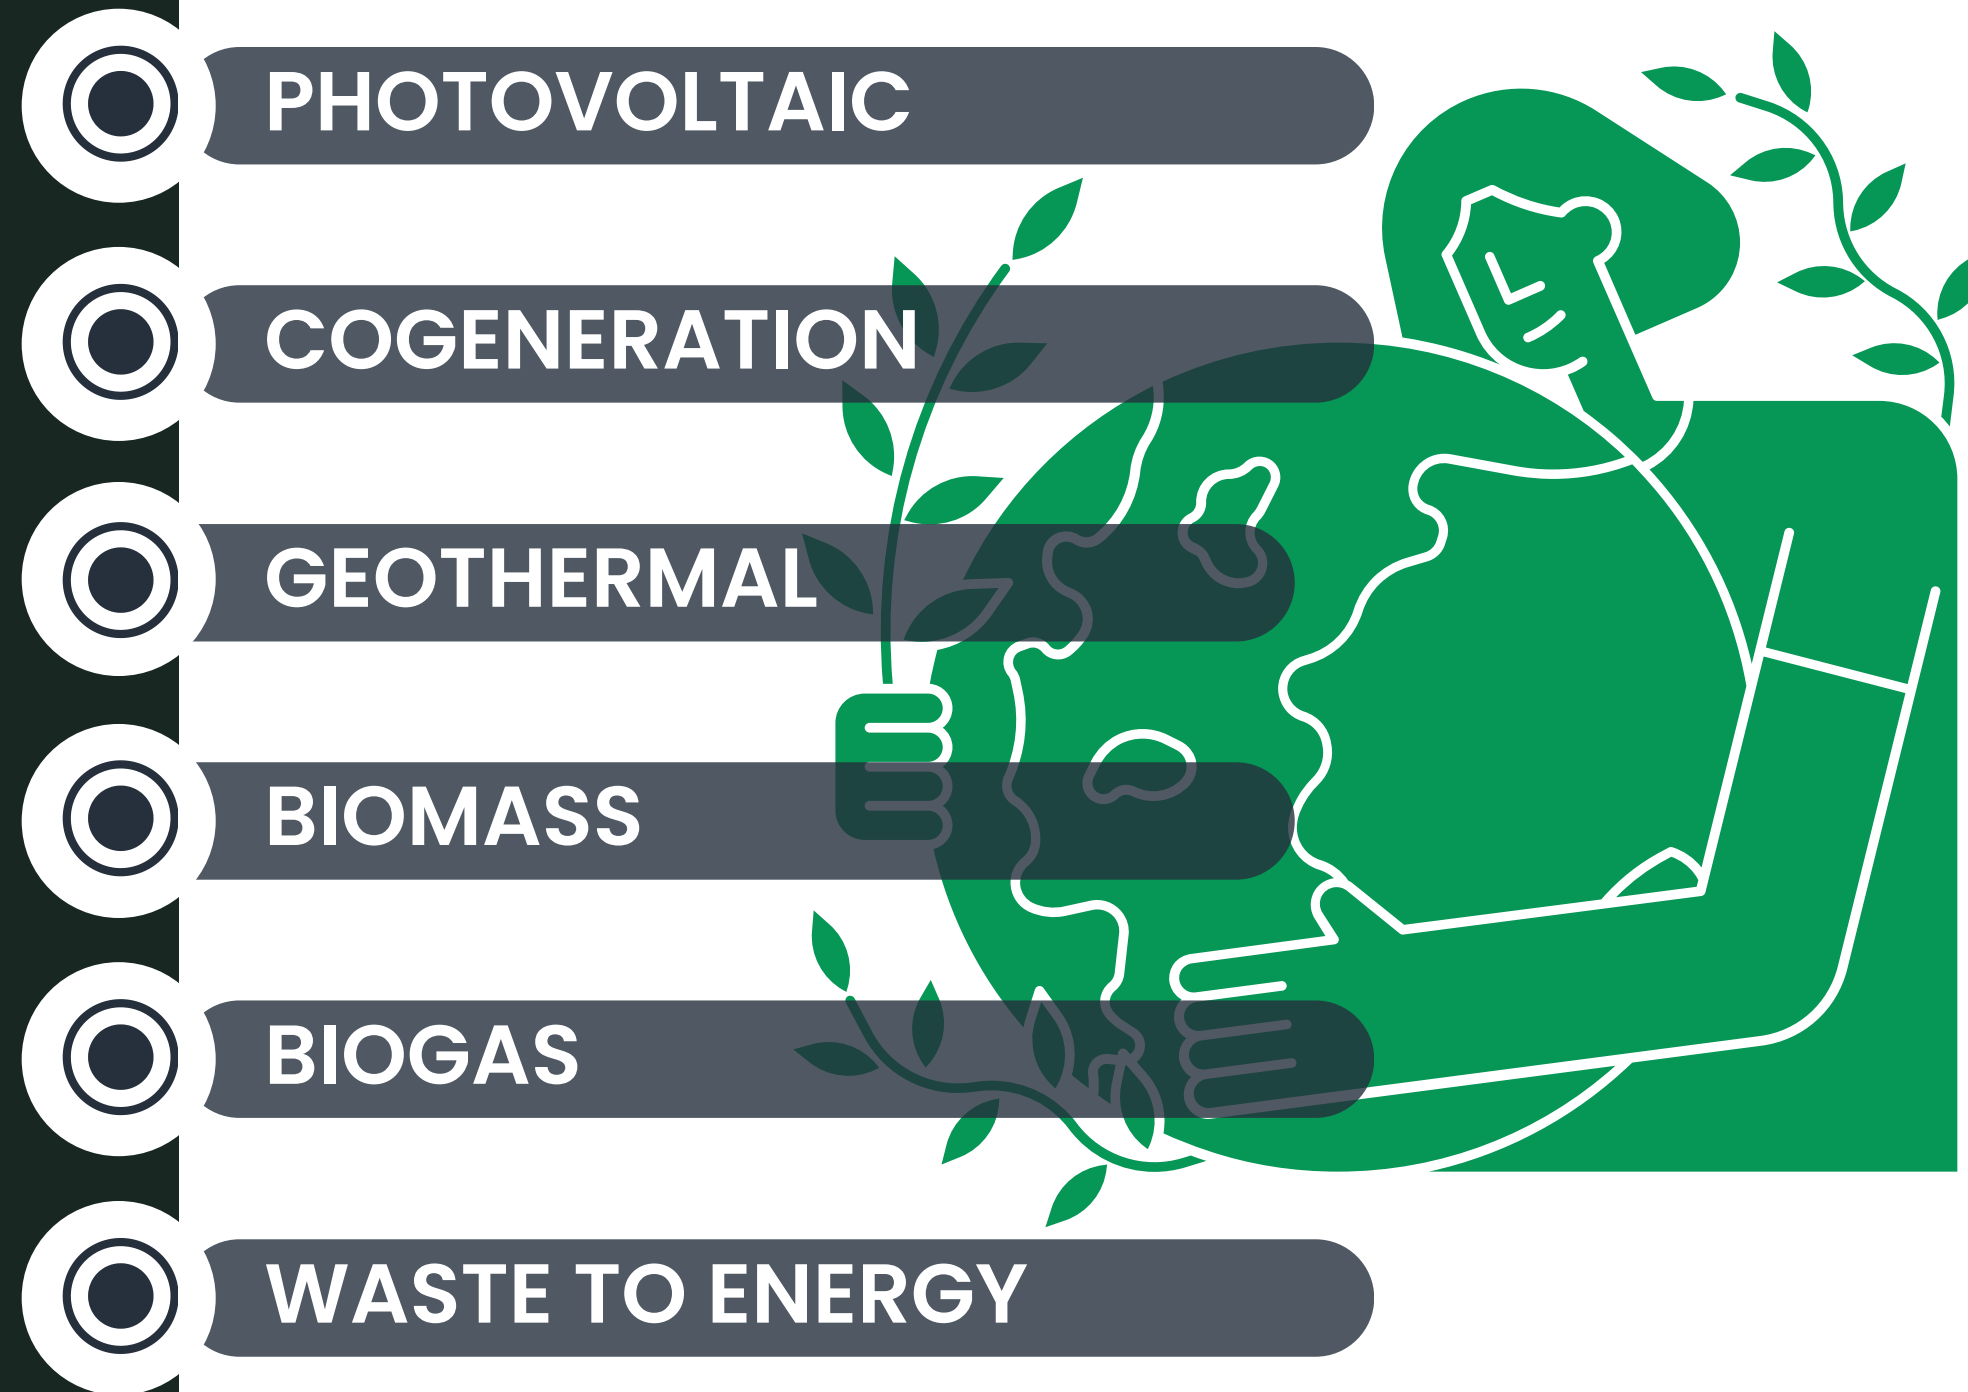

MAINTENANCE

We are with you with a complete of maintenance services offer:

- **PREVENTIVE**
- **PREDICTIVE**
- **CORRECTIVE**

Technical maintenance services are provided by our associates group specialists

SUSTAINABLE SOLUTIONS FOR A BETTER TOMORROW

Proposed services:

- Energy Audit
- Feasibility studies
- Bid and Tender analysis
- Owner Engineering
- Works supervision

PHOTOVOLTAIC SOLAR SOLUTIONS

PROPOSED SERVICES:

- ENERGY AUDIT
- FESABILITY STUDY
- DESIGN
- WORKS

COGENERATION

Proposed services:

Feasibility studies

Owner Engineering

Bid and Tender analysis

Works supervision

CHP Plant

Audit

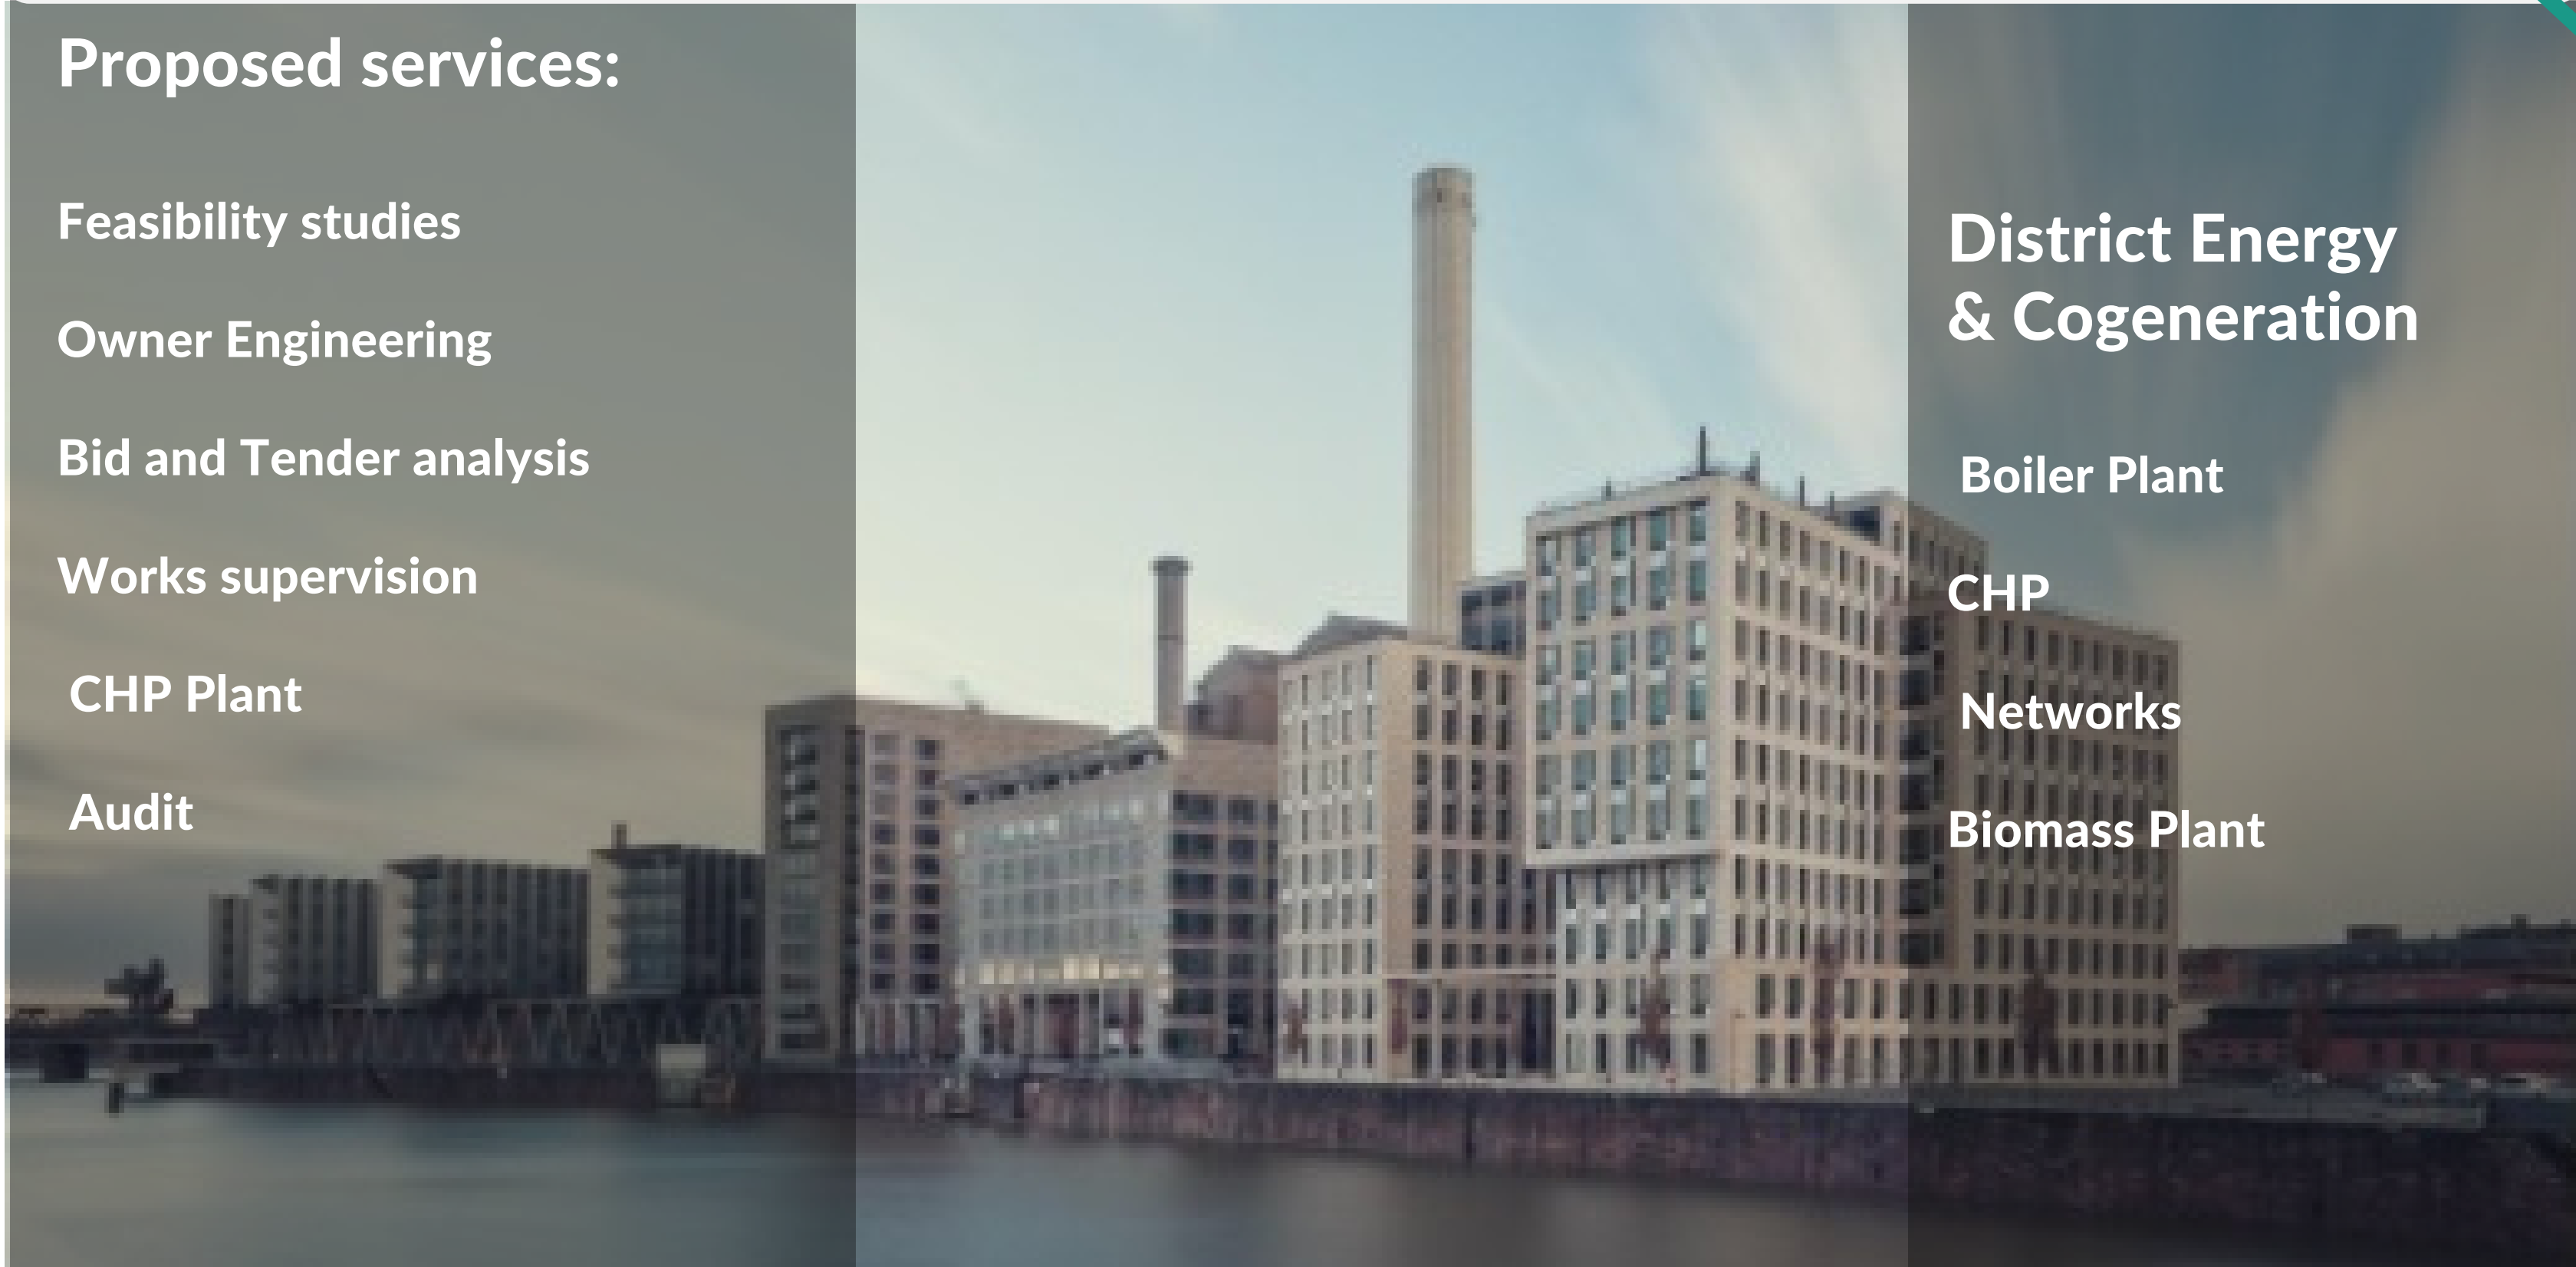

District Energy
& Cogeneration

Boiler Plant

CHP

Networks

Biomass Plant

BIOGAS

- BIOGAS CAPITATION
- BIOGAS CHARACTERIZATION
- METHANISATION (DIGESTORS)
- BIOGAS TREATMENT
- GAS TO ENERGY
- LANDFILL GAS
- GRID INJECTION OF BIO METHANE
- BIO-FUEL

PROPOSED SERVICES:

- FEASIBILITY STUDIES
- OWNER ENGINEERING

Proposed services:

Leveraging our deep expertise in the physical biomass market and a global network of buyers and sellers, we offer a fully tailored biomass brokerage service for biomass products such as wood pellets, woodchips, wood, BioCoal and agricultural residues for buyers, sellers and traders of biomass around the world. Our offers are based on the SBTA terms (Standard Biomass Trading Agreement)

Brokerage

Woodchips

Pellets

Black Pellets

Bio coal

Agricultural
waste

Proposed services:

Pre feasibility studies Feasibility
studies Tender analysis
Owner Engineering Works
supervision

Incineration
Thermovalorization
Heat recovery
MBT Platform

Industrial Utilities

Proposed services:

- Energy Audit
- Energy Conservation Measures
- Project Development
- Project Management
- Owner Engineering
- Works supervision

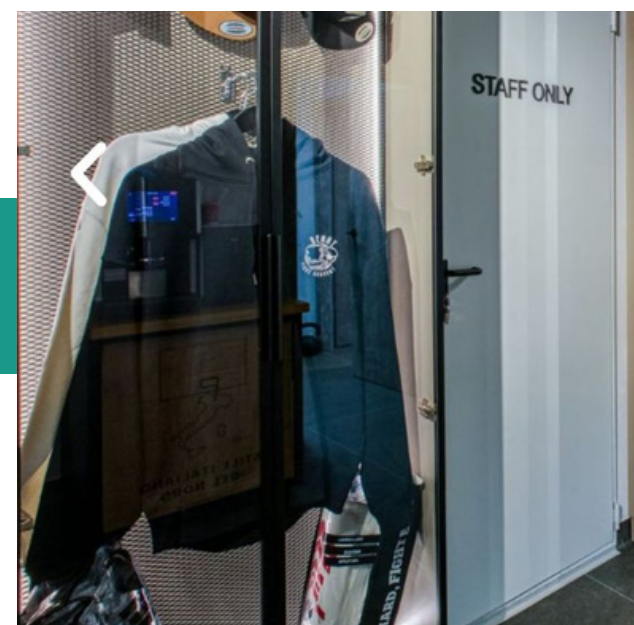

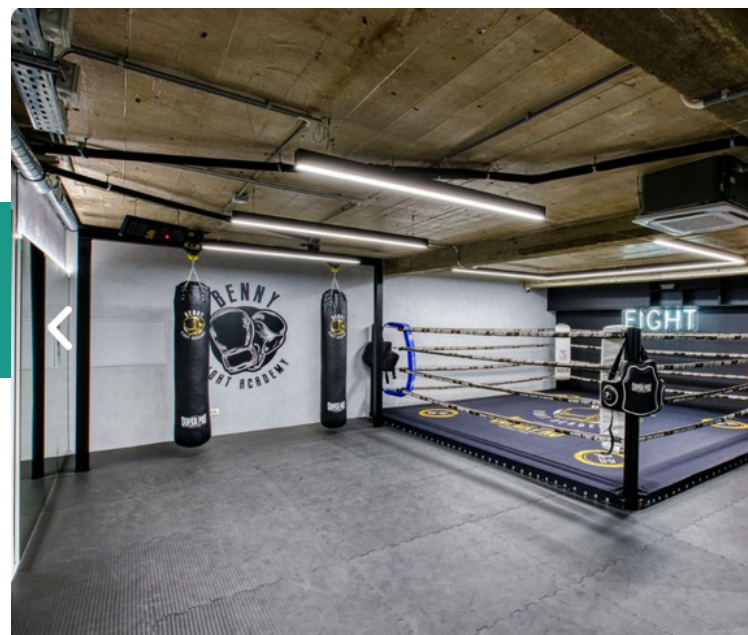

Activities:

- Chemical Industry
- Pharma&Cosmetics
- Oil&Gas
- Power
- Mines
- Automobile
- Food&Bev.
